AGRICULTURE

Agricultural investment funds for development

Descriptive analysis and lessons learned from fund management, performance and private-public collaboration

This review identifies a broad range of funds targeting agriculture in developing and transitioning countries. It classifies them according to geographic distribution, capital, shareholder and investor base, investment instruments, and financial performance, among other criteria.

145 pp.
210 × 297 mm
ISBN 9789251300619

Agricultural policy incentives in sub-Saharan Africa in the last decade (2005-2016)

Monitoring and Analysing Food and Agricultural Policies (MAFAP) synthesis study

FAO Agricultural development economics technical study

This report shows diverging results across countries and commodities, although aggregate figures indicate that price incentives to agriculture were increasing across the period overall. Import tariffs and price support are thought to be the main drivers of this trend.

96 pp.
210 × 297 mm
