AGRICULTURE

Integrated crop management

Nitrogen inputs to agricultural soils from livestock manure

New statistics

This report sheds light on the amount of nitrogen applied to agricultural soils from livestock manure at different scales, and the relevance of producing, refining and monitoring statistics for agronomic policy and planning.

86 pages | 176 x 250 mm | ISBN 9789251300244

ECONOMIC AND SOCIAL DEVELOPMENT

Policy coherence for agricultural transformation in African least developed countries (LDCs)

Aligning agriculture and trade policymaking processes

This project encourages a more consistent approach to mainstreaming trade and marketing issues into agriculture policy planning, including strengthening technical capacity on agricultural trade and marketing where it is lacking.

40 pages | 210 x 297 mm | ISBN 9789251306796

FISHERIES AND AQUACULTURE

FAO fisheries and aquaculture technical paper

Contract farming and public-private partnerships in aquaculture

Lessons learned from East African countries

Through an array of project outcomes in different countries, this paper demonstrates that contract farming is a “win-win” solution because young workers gain access to markets, while private companies have access to produce without acquiring land or supervising labour.

68 pages | 210 x 297 mm | ISBN 9789251307113
